

Quirky Retro Revival

Fun comes in the form of retro styling this season – 40's shapes, satchel-style bags and cute clutches, all mixed up with kitch pieces involving diamante, prints, pearls and embellishments.

Tantalising Textures

From jewellery to belts to bags to purses, texture is a simple way to bring an otherwise average style up to date without being too loud. Textured materials, animal textures, folds, fringing, patents, and combined textures are all evident for A/W09.
